NO WAR WITH CHILI.

The Complications Can Be Settled Diplomatically.

MINISTER EGAN HEARD FROM.

A Peaceful Adjustment of the Difficulty Looked for at an Early Day, but the Government Authorities at Washington Do Not Intend to Take Any Chances and Are Prepared for Any Trouble That May Arise.

WASHINGTON, Sept. 30.—It is now understood that the Chilean complication has simmered down to a position where it can be treated through diplomatic channels. Monday the situation was critical but further details of the matter cabled to the state department since then by Minister Egan, have eased the minds of the president and those who attended the hurriedly-called conference Monday and a peaceable adjustment of the difficulty is looked for.

But the government does not intend to take any chances in being unprepared for trouble and a dispatch has been sent to the commander of the United States ship San Francisco, which arrived at Payta yesterday on her way north to San Francisco via Acapulco to either remain at Payta or return to Valparaiso. When the navy department was closed yesterday afternoon no answer to the dispatch had been received and the department officials are doubtful of its having been delivered before the vessel proceeded on her journey northward.

The government, it is understood, considers the arrest by the Chilean authorities of two servants of Minister Egan's official household, a serious affront that must be dealt with firmly. It is at a loss, however, to find any definite precedents on which to base its protest, although it is firmly convinced that such a matter is serious enough to demand more than a vigorous protest should the Chileans attempt to defend their action.

A case somewhat similar came before the state department while Mr. Seward held that portfolio. A servant of the American legation in Hayti was arrested on a groundless charge and Mr. Seward made a strong protest, demanding an explanation. The matter was compromised by an apology from the Haytian government before the question of the rights of the United States had been settled.

Another case concerned the arrest of an employe of the United States legation in Madrid when Mr. Adee, the present second assistant secretary of state, was an attaché there. The employe in question was a Spaniard, who was employed as a messenger at the legation. He was arrested charged with attempting to evade duty in the Spanish army. Mr. Adee complained to the Spanish minister for foreign affairs and the employe was released before the question of stature of employes of foreign legations was settled.

Several other cases have also been brought before the state department but no definite settlement of the main feature in them was had, the only point decided being that when a government contemplated the arrest of an employe of a foreign legation within its jurisdiction, it shall first so inform the person in charge of the legation. The Chilean government, judging from the meagre information obtainable, does not seem to have informed Minister Egan of its intentions, and if this be true, the United States has what seems to be a good case.

At the headquarters of the Chilean junta legation here it was stated last night that nothing bearing on the Santiago trouble had been received from the home government. The secretary, Julio Foster, said he did not believe there was any serious trouble between the United States and Chili. Mr. Foster was particularly severe in his strictures upon Minister Egan. He said he believed Mr. Egan had exaggerated the whole matter so as to get the administration to take up his cause and relieve him from the embarrassment consequent upon the attitude he had assumed as a friend of Balmaceda.

The people of Chili, he said, knew Mr. Egan and had no confidence in him nor respect for him. They felt that he was largely responsible for the war, because, as a friend of Balmaceda, he had encouraged him to acts of hostility and assured him of the sympathy of the United States. He had excited the displeasure of the people of Chili by his extraordinary course, and if there was a rupture between the two countries it will be entirely his fault. Mr. Egan had aided and abetted Balmaceda. Mr. Foster said, and had enlisted his Yankee followers in Balmaceda's cause as spies and in other capacities. His whole conduct had been such as to arouse national indignation, and some of the men he was protecting from punishment for violation of the law are, Mr. Foster said, charged with being spies and assassins.

Mr. Foster expressed an opinion that Mr. Egan was trying to retrieve the fortunes of himself and others he induced to take up the cause of Balmaceda by kicking up a disturbance. "Mr. Egan should have been recalled long ago," he said. "Had another man been sent to Chili as soon as it was discovered how Mr. Egan was meddling with the Chilean affairs, there would be no sort of trouble between these two countries. I cannot understand why the administration keeps him there to affront our people. You may depend upon it that Chili will respect law and order, and not do anything which is not warranted by the circumstances, but she will not be bullied by any preposterous demand made by the United States upon misrepresentations by Mr. Egan."

NEW YORK, Sept. 30.—The steamer Van Dyck, from Brazil, is detained at quarantine, yellow fever having appeared among the crew on her voyage.

AFTER SEVEN YEARS

John Giroek Confessed Three Murders and Dies.

SHAMOKIN, Pa., Sept. 30.—John Giroek was stricken with typhoid fever a month ago and died last night. Just before his death he confessed that seven years ago, while working at Sunbury, he and Charles Ward murdered Oscar Olack, who worked on a railroad with them, and that they robbed him of his savings. The body was buried under an old tool house.

When asked next day about Oscar's absence they said he had gone to Poland. Richard, a brother of Oscar, suspecting foul play, instituted such a searching investigation that fearful of being discovered, the assassins lured him into the country and killed him. The body was buried in a swamp, and the murderers reported the next day that Richard had gone to join his brother in Poland.

Soon after this the pair came to Shamokin and worked in the mines. A peddler stopped at their home one night for shelter, and in an unguarded moment mentioned that he had \$159. He was shot dead and robbed, and the body thrown down an air hole.

AT BRICEVILLE.

The Miners Await Decision of a Habeas Corpus Case.

KNOXVILLE, Tenn., Sept. 30.—The trouble in the Briceville and Coal Creek mining sections is settled for the present without bloodshed. Last night a mass-meeting of miners and their friends was held, and the situation was discussed at length.

Wise counsel prevailed, and it was decided not to molest the convicts until a test habeas corpus case, now in the courts, whereby a convict seeks removal to the main state prison, shall have been decided.

Three hundred more miners are at work in the Briceville district than during the trouble in July.

Business Failures.

NEW YORK, Sept. 30.—The business failures of the United States as reported by R. G. Dun & Company, for the quarter ending Sept. 30, are in number 2,756, as against 2,196 for the same quarter of 1890. The liabilities of the 1891 quarter amount to over \$44,000,000, as compared with nearly \$35,500,000 in 1890, showing an increase for 1891 of 556 failures, and nearly \$9,000,000 in liabilities. In the nine months of the year 1891 just closed, the failures in the United States number 8,828, with liabilities of \$136,000,000, as compared with 7,581 failures, and \$109,000,000 of liabilities for the same period of 1890.

Swift's Comet Seen.

MOUNT HAMILTON, Cal., Sept. 30.—An exceedingly faint comet was discovered by E. E. Barnard Sunday night. Its position Sept. 28 was 2h. 30m. Mount Hamilton mean time; right ascension, 20h. 53m. 25s.; south declination, 1 deg. 22m. 38s. The comet is moving toward the northwest. It is possible that this is the long expected periodical comet of Swift, but if so it is very far from its predicted place, being 15 minutes of time west and 8 deg. 3m. south of the position assigned to Swift's comet for this date.

Horse Drops Dead on the Race Track.

PUEBLO, Col., Sept. 30.—At the Colorado state fair yesterday, during the progress of the 2:30 trotting race, just after passing under the wire in the third heat, the horse Tramp 8 suddenly stopped, staggered up against the fence and fell over. He gasped a few minutes and the noble animal was dead. He was owned by Mr. Leonard, of Denver. Mr. Leonard had recently refused \$10,000 for the horse, holding his price at \$25,000. Tramp 8's record was 2:21. He was one of the finest bred stallions in the west.

Brewery Assigns.

CINCINNATI, Sept. 30.—The John Seiler Brewing company, of Covington, made an assignment Tuesday morning. The assignment was made to Ben Graziano and Theodore Silhouse. The assets of the concern are \$100,000, liabilities about \$75,000. The cause of the failure was poor business, slow collections, and on account of suits brought against the company by Cincinnati parties.

Heavy Judgment Taken.

HARRISBURG, Sept. 30.—In the Dauphin county court of common pleas yesterday judgment was taken in the case of the commonwealth against John Bardsley, late treasurer of Philadelphia, for \$394,010.40, being for license tax collected by him in 1890. This amount includes interest since May 18 last, and the attorney general's commission, the two items being over \$28,000.

Was Disappointed in Love.

NEW YORK, Sept. 30.—Caesar Gran-shetti, an Italian painter, committed suicide yesterday by blowing out his brains with a revolver. Disappointment in love was the cause. He came here from Rome two years ago. He was an artist of some worth and writer of no mean ability.

Will This Ever Cease?

NEW YORK, Sept. 30.—The agents of the White Star line announces that the Teutonic, which arrived at Queens-town at 2 p. m. Tuesday, has beaten all previous east-bound records by about fifty minutes, her time being five days and twenty-two hours.

A Mother's Love.

LEBANON, Pa., Sept. 30.—Mrs. Thomas Bomberger, while endeavoring to save her four-year-old son, who had strayed on the track of the electric railway, was struck by a car and instantly killed. The child was fatally injured.

Tug Boat Sinks.

SAULT STE MARIE, Sept. 30.—During a heavy gale last night, the tug Bertha Endress went down near Marnaise with six men on board, and all perished. It was the worst storm in years.

ADVICES FROM CHINA

An Entire Village Burned by Pirates.

A BATTLE WITH THE OUTLAWS.

Forty-seven of Them Killed and the Remainder Driven to the Mountains—The Rioting Still Continues at Ichang. Great Damage Done by Rainstorms and Fire.

SAN FRANCISCO, Sept. 30.—Advices from China say that pirates have burned the village of Trung-Ba, on the Black river. One hundred pirates attacked the village of Lueng, but were repulsed, one villager being killed.

At Haidn pirates had two engagements with the civil guards in which forty-seven of them were killed and the remainder driven back into the mountains, where they are hemmed in.

Pirates attacked a boat near Swatow and robbed the passengers of \$4,000. In a riot at Ichang the premises of the Catholic and American missions, and Messrs. Cain's, Dean's and Aldridge's houses were burned while Mr. Cockburn's house was looted. All foreigners are on board the steamer Pooha and the customs officers are under arms. The men-of-war Swift, Aspia, Archer, and Inconstant have been dispatched to the scene of the trouble.

Terrible hail storms are reported in parts of Song Chow, doing great damage. One village had every house levelled to the ground.

Heavy rains and a cyclone at Shanghai early in September unroofed houses and blew down trees, and five lives were lost.

A terrible fire has occurred at Chung Kling and another at Nanking, over 100 shops in the latter place being destroyed.

FOREST FIRES.

Great Damage Done on the Black Gorge Divide in California.

SACRAMENTO, Sept. 30.—A terrible forest fire has been raging for several days on the Black Gorge divide. The fire caught near the town of Greenwood, and, fanned by a strong north wind, has swept over almost the entire stretch of country between Georgetown and Salmon Falls, destroying farm houses, barns, fences, etc. It is believed thirty or forty families have lost all.

The little mining town of Pilot Hill is literally wiped out. The fire passed over a section of country twenty-five miles in length and twenty miles wide. No loss of life has yet been reported, but there have been many narrow escapes.

Forest Fires in Ontario.

THAMESVILLE, Sept. 30.—A forest fire is raging on the Ordinance lands, near Point Aux Pins. The fire is spreading towards the Ontario lumber reservation. It is fanned by westerly winds. Already great damage has been done.

WOULDN'T BE BULLDOZED.

Pipe Line of a Natural Gas Company Blown Up with Dynamite.

ANDERSON, Ind., Sept. 30.—About a month ago the Indianapolis Consumers' Gas Trust company attempted to lay their pipes upon unleased ground belonging to Matilda Harless and Farmer Lawson. The pipe-layers were arrested and find upon the charge of trespass. Viewers were appointed to view the proposed route and assess damages incurred by laying pipe upon said land. Mrs. Harless was given \$600 and Lawson \$400. At this juncture in the proceedings the gas company attempted to bulldoze the affair through by having the pipe laid after night. In this, too, they were outwitted. Several rods of pipe had been laid by night, all of which was blown to fragments by charges of dynamite.

DESECRATED A GRAVE

And Mangled the Corpse of a Lady to Change His Luck at Cards.

HENDERSON, Ky., Sept. 30.—Mr. James Henderson Monday morning swore out a warrant against Charles Clay, charging him with the heinous crime of desecrating the grave and dead body of his (Henderson's) wife, by opening the grave and cutting off one of her fingers. Clay had been unlucky at cards. He asked his companions how to regain his luck. They told him to go to a graveyard on a dark night and cut the forefinger off the hand of a woman, which he seems to have been credulous enough to do. It is quite evident that robbery was not his object, as there was a valuable ring on the left hand, which he left undisturbed.

Bones of a Prehistoric Race.

MEDORA, Ind., Sept. 30.—Human bones have been found in a mound on the Hindler farm, near this place, which are supposed to belong to a people of a prehistoric race. The mound is known as the "Knoll," and it is a sandy terrace, elevated above high-water mark. The terrace is over one mile in length, and there are several minor mounds, besides the principal one, as named. Many stone axes and arrow-heads have heretofore been found. Near Sparksville, on top of a high ridge, nearly 300 feet above the river, can be seen traces of four mounds, located in a sandy field that for many years has been under cultivation.

Colored Woman Hanged.

RICHMOND, Sept. 30.—Henrietta Murrell, colored, was hanged Monday at Smithville, Charlotte county, this state, for the murder, by drowning, of her eight-year-old child. She confessed the crime, saying she could not obtain work and support herself and offspring.

Stage Robbed by Highwaymen.

REDDING, Cal., Sept. 29.—Two highwaymen yesterday robbed the Redding and Alturon stage, near Stillwater, nine miles from Redding. It is not yet known how much plunder they got. A posse has started in pursuit of the men.

HAWAIIAN ADVICES.

What Was Learned Upon the Arrival of the Steamer Australia.

SAN FRANCISCO, Sept. 30.—The steamer Australia has just arrived here from Honolulu and brings the following Hawaiian advices: The native newspaper, Elele, published an article Sept. 19 attacking some of the prominent personages of the kingdom on political grounds. The editor of the paper was arrested and his office closed.

Plantation owners are greatly relieved by the rain which has fallen almost daily for two weeks prior to the steamer's departure. Previous to the rainfall there had been great drouth, during which crops were badly damaged and cattle died from want of water.

The Hawaiian Gazette, received by the same steamer, in an editorial says: "It seems hardly necessary to repeat what was said a short time ago in this paper that there has been no desire expressed on the part of Hawaiian papers for annexation to the United States, as has been published in our foreign exchanges. At the same time two of the native papers advocated election by popular vote of all officers of the government, include mayors, judges and all other officers, which change would evidently result in a republican form of government. Many think the time has not yet arrived to inaugurate such radical changes as these named, and believe that for the present at least, a monarchical form will insure greater stability in the government and greater respect from other nations."

The will of the late John Dominis, prince consort, will be probated Sept. 30. The value of the property is estimated at about \$50,000.

SHE MARRIED A DUDE.

The Matrimonial Mishap of an Akron (O.) School Marm.

AKRON, Sept. 30.—A. R. Fleischman, a duds-looking individual who has cut a swell in society circles for a year past, occupied a cell at the city prison Tuesday morning, having been arrested for raising a disturbance at the home of his mother-in-law, Mrs. Rose Class, by repeated demands to see his wife.

Fleischman married a popular Akron school teacher last year, and has represented that he had plenty of money from a rich uncle in Europe. Monday morning Mrs. Fleischman filed a petition for divorce, making sensational charges of cruelty, and telling how her husband pawned her jewelry and how he administered drugs to her and threatened her life and the life of her child. The court enjoins Fleischman from interfering with his wife until the case is decided.

FEARS FOR THE WHITES.

Indians in Northern Idaho Becoming Troublesome.

SPOKANE FALLS, Sept. 30.—The settlers in Calopiel valley, in northern Idaho, are alarmed at the menacing attitude of the Indians in that section. Marsela, chief of the Calopiel, is reported, has ordered all white settlers out of the country, and the Indians are running off the settlers' stock and otherwise annoying the whites.

General Carlin in command of the Fourth infantry, now in camp at Spokane, has been urged to take measures of precaution. He has sent for the Indian Agent Hal Cole, who will arrive here today. A troop of cavalry under command of General Carlin, is ready to march, and may start at once for the scene of disturbance. Calopiel valley is isolated, and all supplies have to be sent in by pack.

Another Louisville Bank Closes.

LOUISVILLE, Sept. 30.—The Kentucky Savings bank, the fourth bank that has failed in Louisville inside of six months, has closed its doors, unlike the other failures, however, the depositors in this instance will be paid in full. The bank is a young and small one, with \$100,000 of capital stock and \$30,000 of deposits. It did fairly well until the exposure of Major Tillman's defalcation in the Falls City bank. He was president of the smaller institution, and it was unable to continue business after the loss of public confidence caused by his flight. The depositors will be paid on demand by the assignee after Oct. 1, and the stockholders will get dollar for dollar for their stock.

A Physician Suicides.

TIFFIN, O., Sept. 30.—Yesterday morning the body of Dr. F. W. Schwan, one of the best known local physicians, was found in a clump of trees about three miles south of town. Every circumstance pointed to suicide. He had shot himself just back of the right ear, and the weapon, a 32-caliber revolver, was clinched in his hand. He had driven out from the city and hitched his horse to a tree not far from where the remains were found.

Pennington's Air Ship Destroyed.

ST. LOUIS, Sept. 30.—Pennington's air ship, which was under a tent at the fair grounds in readiness for a trial to be made Saturday, when the athletic sports will be in progress, was caught by the storm which passed over the city yesterday afternoon and blown away. As no trace of the ship has been found it seems probable that it was destroyed. The trial has been abandoned. The ship cost \$20,000.

Unpleasant News to Hear.

LAFORTE, Ind., Sept. 30.—Michael Strobel, father of Charles Strobel, the young man who strayed from his home here two months ago, while deranged by illness, received a telegram at noon yesterday stating that the dead body of his son had been found in Milwaukee.

Canning Factory Burned.

LEWES, Del., Sept. 30.—The canning factory of E. J. Morris & Sons here took fire from the gasoline apparatus used in soldering cans, at noon yesterday, and was entirely destroyed, including machinery and goods. Loss, \$7,000; no insurance.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & McCARTHY,
Proprietors.

WEDNESDAY, SEPTEMBER 30, 1891.

BOWLING GREEN has succeeded in riding herself of lotteries. Why can't Maysville do likewise?

A PUBLIC official who accepts or uses a free pass now forfeits his position. We have a new Constitution.

DID the Jessamine Journal never hear that "to him that hath shall be given?" That paper says: "It looks like 'carrying coals to Newcastle' for the Con. Con delegates to give a service of silver to Cash Clay. He already had more silver than he knew what to do with, while some of the generous donors haven't a silver knife, fork or spoon on their tables. This reminds us of a barefoot servant girl of Nicholasville who gave half a dollar to help buy a dressing gown for her sable pastor."

SENATOR CARLISLE recently made the following interesting statement to a Courier-Journal reporter. He said: "It would be very foolish to make silver the paramount question of the campaign in 1892. We are united on the tariff question and somewhat divided on silver. It would be wiser to enact laws that will enable the people to keep money they have than to permit the continued exaction of increased taxation. With the increased prosperity of the country, occasioned by the failure of the cereal crops abroad and the abundant crops of our farmers, the silver question will give way to the more important one of tariff reform. Russia has issued an order prohibiting the exportation of rye, and Germany is about to substitute wheat for rye in the army. If this is true, the farmers will receive the benefit of the increased prices, and another good result will be the return of gold to this country."

"Will not the Republicans claim the prosperity of the farmers is due to the McKinley bill?"

"No doubt they will make such a claim but the farmer knows that good crops are not the result of legislation. They know the McKinley bill has almost taxed them out of existence, and that if they are going to receive the full benefit of the present prosperity, laws must be enacted to reduce taxation."

Delusive Finance.

Secretary Foster and his subordinates are making rulings by which appropriations are held up. And they are refusing to pay out moneys that have been appropriated by Congress.

Mr. Foster may thus secure money for the immediate necessities of the treasury, but he is only postponing the evil day. If he uses the money deposited to the credit of disbursing officers, the debts payable by those officers will remain due. If he uses up the \$100,000,000 redemption fund he must replace it. If he makes way with the balance due to holders of uncurrent national bank notes he must make it good in the future. If he declines to pay current expenses he simply creates a new debt. The Secretary of the Treasury can no more than a private citizen make money or save it by refusing to pay his debts. The Billion-Dollar Congress provided for an expenditure in excess of the public revenues, and Mr. Foster cannot change that fact by holding up the appropriations. Sooner or later they must be paid.—N. Y. World.

T. H. N. SMITH, Captain.

Under the management of J. T. Harahan, the Illinois Central is making a great increase in earnings. The road earned \$17,881,554 this year, an increase of \$1,429,532. The net earnings were \$5,120,508. It has added to its equipment 74 engines, 81 passenger coaches, 1,358 freight cars and 69 ballast cars.

Among the late fancies of brooches are gold bow knots which by a secret process are made to look like plushes of different hues.

TEACHERS MUST WAIT.

No Funds in the Treasury to Pay Them—Circular from the State Superintendent.

A special from Frankfort to the Courier-Journal Tuesday says: "The State treasury will again be empty October 1, and still be unable to meet the drafts upon it by no less than \$300,000 due the common school teachers throughout the State."

"The school law requires that, on October 1, two-fifths of all the school fund for the year shall be paid out to the teachers, which aggregated October 1 last \$418,449. To meet such a very large draft within such short period of tax collections by the Sheriffs, has hitherto demanded unusual diligence and promptness by the Sheriffs, even during the off years, when there was no such great outlay for the expenses of a Constitutional convention. But when these expenses fall within one year, and upon a tax reduction from 47½ cents to 42½ cents, the case is almost hopeless, and necessarily calls for indulgence by the school teachers, who will within the next few days have the matter explained to them by the County Superintendents, to whom the following circular letter will be issued by Superintendent Thompson:

DEPARTMENT OF INSTRUCTION,
OFFICE OF SUPERINTENDENT,
FRANKFORT, Sept. 28, 1891.
To Superintendents of Common Schools in Kentucky—Gentlemen: The following letter from the Auditor of Public Accounts has just been handed me. It explains itself:

OFFICE AUDITOR OF PUBLIC ACCOUNTS,
FRANKFORT, KY., Sept. 28, 1891.
Hon. Ed. Porter, Superintendent of Public Instruction—Dear Sir: I am informed by Hon. H. S. Hale, Treasurer, that there is not a sufficient fund in the treasury to pay two-fifths of the school money required to be paid by law on October 1 next, as per your warrant on file in this office—barely enough to pay one-fifth. I therefore respectfully suggest to you to address a circular to the county Superintendents setting forth this fact and stating that on November 1 there will be ample funds to pay the two-fifths the one-fifth unpaid on October 1 and the one-fifth that falls due on November 1. Yours respectfully,
L. C. NORMAN, Auditor.

However prompt the Superintendent may be in drawing his warrant on the Auditor (as you will note he has been) and the Auditor on the Treasurer, there is no argument against an empty exchequer. Settlements with collectors of the revenue cannot be enforced, as you know, before the 1st day of December, and this year the taxes have not been paid in.

I am assured by the fiscal officers that there will be abundant means on hand to meet the demands on or before November 1. Respectfully,
ED. PORTER THOMPSON,
Superintendent of Public Instruction.

GERMANTOWN FAIR.

Everything in Readiness for a Big Fair This Week.

It has been industriously circulated in many localities by some idle or evil-minded person that, on account of the prevalence of "black tongue" in this community, the Germantown fair would not be held this season. There is no "black tongue" in this locality, or any other alarming or contagious disease among men or horses, and the report is altogether false.

The "old reliable" is recognized everywhere as the best fair in the State, and is just now on the top wave of prosperity. We anticipate the largest fair held for years. J. A. WALTON, Sec'y.

We, the undersigned, physicians residing in Germantown, Ky., do hereby certify to the correctness of the above statement.

How revolting to hear a child three or four years of age take God's name in vain, and still worse to have a lot of grown-up men and some whose heads are whitening for the grave to encourage it by joining in a laugh instead of reproving it. Bring up your children in the nurture and admonition of the Lord.

Louisville Tobacco Market

Furnished by Glover & Durrett, proprietors Louisville Tobacco Warehouse.

Sales on our market for the week just closed amount to 2,869 hds., with receipts of 1,241 hds. for the same period. Sales on our market since January 1st amount to 125,640 hds. Sales of the crop of 1890 on our market to this date amount to \$7,671 hds.

Our market for the common and medium grades of burley tobacco, except where they have high color, continues dull without any indication of improvement. The fine grades of leaf continue in active demand at high prices. The hoarding of the new crop has continued without interruption during the week, but the weather has been very much warmer than was desirable for the good of the crop after it was cut.

The following quotations fairly represent our market for new burley tobacco:

Trash (dark) or damaged tobacco.....\$ 2 00@ 3 00
Colony wash..... 3 00@ 6 00
Common tugs, not colony..... 3 50@ 4 50

Medium to good leaf..... 7 50@12 00

RYLES' twelve-year-old son was fatally shot by Noah Smith's ten-year-old son near Paris Sunday morning. They were fooling with a pistol and didn't know it was loaded. DURING the fair this week, commencing to-day, the regular Germantown bus- —Caughlin & Porter, proprietors—will leave here daily at 7 a. m. for the grounds, returning in the evening. s26d3t MR. BENTON CLARK and Miss Rebecca Stairs, of Bracken County, were married yesterday afternoon at Wellsburg, that county, and were guests of Mr. I. N. Foster and family last night. MR. PAT FALLON died at his home in Paris last Saturday morning of paralysis. He was well known in this county and was at one time a toll-gate keeper for Col. Baldwin. He was a true Democrat and took an active interest in local politics.

RILEY MACKLIN, **The Murderer—Brought Back** **from Vernon, Tex., by Town** **Marshal Williams.** **Landed Safely in the Robertson Coun-** **ty Jail.** Mr. J. T. Williams, Town Marshal of Vernon, Texas, arrived in Maysville at noon yesterday, having in custody the notorious Riley Macklin, who is badly wanted by the authorities at Mt. Olivet to answer the charge of murdering George Weisbrodt at Blue Lick Springs last July. The particulars of the killing are, of course, fresh in the minds of our read- ers. Mr. Williams arrested Macklin at the home of Mrs. Skinner, about twenty- five miles from Vernon, in Texas. Mrs. Skinner is a daughter of Mr. Neal Ben- nington, of Robertson County. Macklin waived the formality of procuring requisition papers and he and Williams started for Kentucky on Saturday even- ing. Mr. Williams kept his prisoner safely handcuffed while en route, and at night he would fasten Macklin to the car seat with a trace chain, which he tied about his feet and then locked with a good old-fashioned pad-lock. The coming of Macklin and party was expected and the people of Mt. Olivet all turned out to see them. Macklin has been indicted for murder in both Nicho- las and Robertson, as there is some doubt as to which county the killing oc- curred in. The Magistrates of Robertson County will meet Monday week and allowed a \$50 reward to Mr. Williams for his services. Besides the State will pay him a reward of \$200, for the capture. Mr. Williams left for Frankfort this morning to draw his money. Mr. Williams had no one with him for assistance, and he says he did not sleep much on the road. Wil- liams is about thirty years of age, of medium stature, has an eye like an eagle and looks like an officer able to discharge his duties under any circumstances. He was Deputy Sheriff before being elected Town Marshal and has had con- siderable experience among the "cow- boys." Jailer R. C. Kirk and Sheriff John W. Alexander accompanied Mr. Williams with his prisoner to Mt. Olivet in the afternoon, where Macklin was turned over to the Robertson County officials. **A Tobacco Premium.** Premium of \$10 for best sample six hands bright leaf tobacco. Award to be made December 15th, 1891, DULEY & BALDWIN. **Germantown Fair.** The Germantown fair commences to- day and will continue the remainder of the week. The weather is all that could be desired, and everything indicates a suc- cessful week. This is one of the last fairs of the season, but it will by no means be the least. As this old reliable fair grows older it continues to grow better. Better crowds and better attractions than ever are promised this year. Let everybody attend the model fair of the season. Hauck's Reed and Brass Band left early this morning for the fair and will discourse sweet music all the week. **Lecture.** We take pleasure in announcing that the lecture course at the Maysville High School will be opened by Dr. A. A. Willis Tuesday evening, October 13. Subject: "Sunshine." This lecture has won for Dr. Willis a national reputation, and much pleasure as well as profit is an- ticipated. An exchange says: "It would be quite impossible to incorporate into a synopsis the pleasing feature of the lecture, as it was one of those spontane- ous, happy efforts, brim full of anecdote and illustration, which must be heard to be appreciated. No man will know all that is good and sweet in human life without hearing Dr. Willis on 'Sun- shine.'" **Here and There.** Mr. Percy L. Mannen, of Middleboro- ough, is in town visiting relatives. Mr. Alex Calhoun, pilot on the White Collar Line, is here spending his low- water holiday. Mrs. Jas. W. Piper and children have returned from visiting relatives in Cin- cinnati and Dayton. Attorney Geo. W. Adair has returned from Lee and Powell counties where he has been for several days on legal busi- ness. Miss Annie Hudson the popular young teacher is confined to her room with an attack of fever and Miss Maude Adair has charge of her school. Judge Wall returned from Covington Saturday, after disposing of Mr. E. E. Buckner's estate. Mrs. Wall and Miss Ethelene remained, and will be at the opening of Miss Armstrong's school to- day at Liddesdale Place, Mt. Auburn, which Miss Ethelene will attend for the ensuing year.

 A REPUBLICAN who resides in Indiana
 and who is now here on a visit says that
 if President Harrison should be re-nom-
 inated he will lose that State by at least
 10,000 majority. The county this gentle-
 man lives in usually gives six hundred
 Republican majority, but at the last elec-
 tion it gave a majority of only one.
 DR. BROWNING returned yesterday from
 Concord, where he was called to see ex-

 There are but slight hopes of his recovery.

 the chair of English Literature in Ken-
 tucky University, was elected on Sunday
 to fill the pulpit at the expiration of the
 present pastor's term at a salary of \$2,400
 a year.
 JOSEPH McCLELLAND, SR., the noted
 horse breeder and mule trader dropped
 dead of heart disease at his home near
 Millersburg last Monday night. He was
 an uncle of Mr. William McClelland of
 this county. His son Mr. Joe. McClel-

 Germantown fair for many years and
 always brought with him many fine show
 horses.

 S. Cleveland's Consolidated Minstrels.
 Manager Cleveland was determined to
 have everything new, and the success of
 his endeavors in that direction will be
 demonstrated at the opera house to-night,
 when his newest and best company will
 appear.
 ARTHUR RIGBY, an exceedingly droll
 and original comedian, is one of Manager
 W. S. Cleveland's recent discoveries. Mr.
 Cleveland says that he is the greatest liv-
 ing eccentric black face comedian. He is
 now with Cleveland's "Big City Show,"
 which will beat the opera house to-night.
 The company is en route to New Orleans,
 having recently closed an engagement at
 New York.
 A fire was discovered in one of the
 rooms on the second floor of the St.
 Charles Hotel yesterday morning, but was
 soon extinguished without calling out the
 fire department. The bedding in the room
 was destroyed and the bedstead badly
 scorched. The damage amounts to about
 \$25. The origin of the fire is a mystery,
 but it is supposed some one on leaving
 the room threw a match upon the bed.
 MAYSVILLE COMMANDERY No. 10, K. T.,
 has tendered the Oddfellows of this city
 their elegant quarters in Masonic Temple
 for the reception to be tendered the Grand
 Lodge of the State October 15. The ten-
 der was wholly unsolicited. It was a
 very graceful and brotherly act on the
 part of the Sir Knights and is highly ap-
 preciated by the Oddfellows. The Daugh-
 ters of Rebekah will have charge of the
 banquet.
 THE Owensboro Inquirer says of a very
 bright young gentleman: "The matricu-
 lation together of Mrs. Mary Cobb
 Hooker and her two sons at Kentucky
 University is not without something of a
 parallel in this and other States. Hon.
 A. L. Peterman, ex-State Senator from
 Monroe County, and one of the brightest
 politicians in the State, mastered a sci-
 entific and literary course of study in a
 Kentucky university and watched over
 and cared for a wife and several children
 at the same time. In the large normal
 schools in the North husbands and their
 wives and widows and widowers are
 more common than uncommon among
 matriculates."

FAMINE SUFFERERS.

Great Destitution Prevailing in Russia.

THE GOVERNMENT IS BLAMED.

In Addition to the Want of Food Other Plagues Exist—Thousands of Heads of Cattle Have Perished—Whole Villages Destroyed by Fire, the Inhabitants Being Too Weak to Combat the Flames. Other Foreign News.

ST. PETERSBURG, Sept. 30.—The people in the famine districts are reduced to eating sweepings and refuse from flour mills. This material is so injurious that cattle are not allowed to feed upon it. The government is blamed for not prohibiting the exporting of rye before the supply was exhausted. The famine is not the only cause of distress. A plague has destroyed thousands of heads of cattle and many villages have been burned, the inhabitants being too weak from hunger to combat the flames.

Heavy rains have fallen and the ground is so soaked with water that the potatoes are rotting. The price of potatoes has already doubled and is still rising.

The peasant boards have sent petitions to the ministry praying that the taxes and arrears of taxes may be wiped out. The petitioners declare that the government will be obliged to maintain the impoverished people for fourteen months, and that it will be utterly impossible for them to pay the taxes.

A circular has been issued by the minister of the interior which enumerates thirteen governments in which the people are completely famine stricken and eight in which a partial famine prevails.

The great fair which is annually held at Nijne-Novgorod, and which is attended by merchants and dealers from all parts of Russia was a failure this year. This was due to the great number of bankrupts and their consequent withdrawal from trade.

In many villages the peasants have nailed up their huts and left their communities to scrounge the country in search of work. Hundreds of them have failed in their search, and are begging along the roadsides. In numerous cases the seed corn which was furnished the peasants by the government has been eaten instead of planted, and the land is lying fallow.

Notwithstanding these terrible conditions, taxes continue to be extorted from the starving people. Everything is taken from them to satisfy the tax-gatherers. Where the peasants display any unwillingness to pay, the collectors resort to force to extort the money. The knout is extensively used by the officers of the tax collecting department of Russia.

Whole towns containing from 30,000 to 50,000 are petitioning the government to allow them to migrate to China or elsewhere.

Suicide has become enormously rife since the famine set in, but no statistics have been prepared, and it is impossible to arrive at any reliable data of this or any other form of misery existing among the poor.

Mutinous Sailors.

HAMBURG, Sept. 30.—The troubles between the officers and crew of the Chilean warship Presidente Pinto, which is moored in the River Elbe, near this city, have broken out afresh. The crew are mutinous and have refused to perform duty. The captain is unable to enforce discipline and for the second time has appealed to the authorities to assist him in confining the mutineers. A short time ago the crew were insubordinate, and the captain was obliged to appeal to the Hamburg police for assistance. On that occasion the authorities decided that it was not within their province to board a warship of a foreign nation to assist her officers in restoring order.

Chinese Government Powerless.

LONDON, Sept. 30.—The Times publishes Shanghai advices up to Sept. 19, which represent the Chinese government as powerless to control the Hunanese troops, unless a fleet is promptly despatched to the disturbed district. The Shanghai newspapers urge that the British minister should take up his residence in that city for at least part of the time, as only there can information as to the progress of events be obtained.

Mr. Hirsch sailed for New York on the Fuerst-Bismarck on Saturday last.

Cotton Crop of Turkestan.

INDIAN CHILDREN.

They Cannot be Compelled to Attend Schools Provided for Them.

WASHINGTON, Sept. 30.—The commissioner of Indian affairs has received a copy of the opinion of Judge Green of the district circuit court of Oklahoma in the case of an Indian boy who was compelled to attend school at Chillicothe against the wishes of his parents.

In the habeas corpus proceedings which followed the judge directed the restoration of the boy to his parents, on the ground that under the law the Indian officials are required to issue rules and regulations to compel attendance at school, but the rules have never been issued. The judge, in his opinion, holds that Indian children cannot be compelled to attend the schools provided for them any more than white children.

While the restoration of the child is based upon a technicality, Indian Commissioner Morgan says that the case involves the status of the Indians of the United States, and he will bring it before a higher court; and in his annual report he will recommend that their status be definitely decided.

Her husband dying soon after their marriage, she returned to Chillicothe, and in 1844 was married to Judge Thurman. From that union three children were born. Vernon; James Oliver, South Bend; John E. Lamb, Terre Haute; George W. Self, Corydon; Marcus Gavitt, Madison.

PLOT TO KILL POLICE.

LOUISVILLE, Sept. 30.—The Jeffersonville (Ind.) police station was blown up by dynamite at 11:45 o'clock Monday night. The doors and windows were blown to pieces and the stone wall cracked.

It is thought to have been the result of a plot to kill certain of the police who have been pursuing criminals with great vigor of late. The explosion occurred at the time when the night officers lunch at the station. There was no one in the building at the time, three officers having left five minutes previous.

Fighting Farmers.

MARSHALL, Ind., Sept. 30.—A lawsuit over a small amount of money between two well-to-do farmers, C. K. Huff and Bart McDaniel, has engendered a good deal of bad blood, and it culminated in a fight yesterday. The affray would probably have ended fatally but for the interference of friends, as one of the parties drew a knife and the other secured a boulder. They were finally separated.
